2017 Gala Speaker

Vince Gill is famous for his top-notch songwriting, world-class guitar playing and warm, soaring tenor, all wrapped up in a quick and easy wit. Gill achieved his big breakthrough in 1990 with "When I Call Your Name," which won both the Country Music Association's Single and Song of the Year award as well as a Grammy. Since then, he has won 17 more CMA honors, including Song of the Year four times – making him the most-awarded artist in that category in CMA history.

Since 1990, Gill has won 20 Grammy Awards. The Academy of Country Music has conferred on Gill eight awards, including its prestigious Home Depot Humanitarian Award and the 2011 Career Achievement Award. Gill was inducted into the Country Music Hall of Fame in 2007. He is also a member of the Grand Ole Opry. In August 2012, Gill was honored with a star on the Hollywood Walk of Fame. He is a member of the four-time Grammy-nominated band The Time Jumpers.

The Cornerstone Society

The Cornerstone Society recognizes individuals, businesses, foundations and organizations that make an annual commitment of \$1,000 or more to support ongoing programs and operations at Gwinnett Medical Center. The Foundation hosts a **Cornerstone Society Appreciation Gala** annually to recognize and thank these generous donors. To attend the 2017 Gala, your donation of \$1,000 or more must be postmarked by **December 31, 2016**.

Join us as we expand services for life's most precious gifts.

Neonatal Intensive Care is a specialty unit for newborns who need additional care in their first hours, days, weeks or months of life, due to prematurity or birth defects. Gwinnett Medical Center's Level III neonatal intensive care unit is staffed by experienced, specialty-trained nurses, therapists and technicians who provide the highest levels of care for these infants. Our neonatologists, specially-trained physicians, work with our support staff. In order to achieve the best outcomes possible, our staff must utilize state-of-the-art monitoring equipment and diagnostic tools, ensuring these babies receive the appropriate level of treatment and care.
