# About Physician Partners

Established in 2007, the Physician Partners program was created under the leadership of Manfred Sandler, MD to recognize members of the GMC medical staff who donate \$2,000 or more annually to the GMC Foundation to enhance patient care and the services we provide. In addition, these physicians are roaring advocates and are active in promoting awareness of all fundraising initiatives.

It is our vision to build sustaining relationships with our physician community because we believe that their support and influence can take us to a new level in philanthropy.

Gwinnett Medical Center Foundation's Physician Partners program received the Best Practices Award from the Association of Healthcare Philanthropy in addition to a state award by the Georgia Association for Development Professionals, an affiliated society of the Georgia Hospital Association.
